Product Designer with 5+ years of design experience and an MA in User Experience Design, combining strategic UX thinking with strong visual craft to create clear, accessible, and scalable digital products. Experienced in translating complex user needs and business goals into intuitive product experiences, with measurable improvements in engagement of up to 30%

SKILLS

Product Design | UX/UI Design | User-Centered Design | UX Research & Synthesis | User Flows | Wireframing | Prototyping & Usability Testing | Interaction Design | Responsive Design | Design Systems | Accessibility & Inclusive Design | Information Architecture | Product Thinking | Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Educavel

Maputo, Mozambique (remote)

Product Designer (UX/UI) | Design Consultant

Mar 2024 - Present

- Improved product clarity and delivery alignment across core learning flows by leading end-to-end user-centered design, mapping user flows, creating wireframes, and refining key product interactions.
- Reduced friction across key platform interactions by restructuring information architecture and redesigning user journeys with accessibility and inclusive design principles.
- Translated educational goals and technical constraints into scalable interface solutions, supporting faster design-to-development handoff.

Immanence

Milan, Italy (remote)

Visual Design Consultant

Jul 2023 - Dec 2023

- Led a Figma-based interface redesign, improving usability, navigation clarity, and interaction quality across the platform.
- Designed cross-channel digital assets and information architecture flows, ensuring consistent brand expression across key touchpoints.
- Built interactive prototypes to validate design decisions through usability testing and support clearer stakeholder feedback.
- Delivered campaign assets for launch initiatives, strengthening product communication across digital channels.

Africa Golf Management
Cape Town, South Africa (remote)

Visual Design Consultant
Jul 2022 - Jun 2023

- Designed scalable luxury print systems and apparel graphics for high-end golf clubs, creating cohesive visual assets for premium collections.
- Improved stakeholder alignment and concept evaluation by building presentation templates and high-fidelity mockups in Adobe Creative Cloud before production.

Creative & Brand Consultant
Cape Town, South Africa (remote)

Freelance · Various Projects
Mar 2021 - Jun 2022

- Built cohesive brand identities for fashion start-ups by translating early-stage concepts into structured visual systems across digital and print touchpoints.
- Improved end-to-end project consistency by managing the full creative process from concept to delivery and leading structured client feedback sessions throughout each project stage.

Mille Collines Africa
Cape Town, South Africa

Lead Visual Designer
Feb 2020 - Feb 2021

- Increased Instagram engagement by 30% by revamping content strategy around stronger storytelling, audience relevance, and consistent brand expression.
- Strengthened creative direction across international fashion collections by integrating user research insights into seasonal campaign strategy and visual communication.
- Designed packaging and marketing visuals across digital and physical channels, ensuring cohesive brand execution throughout each collection launch.
